

Last night the City of Burlington failed to protect me from members of the Brian Dubie Republican campaign, thus I want full protection from this time onwards. These persons engaged in mob like behavior, disrupting the peaceful flow of foot traffic to and from before the Doubletree hotel, where an AARP political debate was held. Their behavior bordered on riotous, it appears Brian Dubie is responsible for inciting these 40 or some odd individuals to disrupt the peace, and it further appears as a purposeful method to intimidate others whom he perceives as opposition. Nearly 40 odd persons stood behind 4x8 panels, or billboards bearing Brian Dubie's name, and, while chanting and yelling moved those panels, sweeping me before them. They blocked all exit to the North on the pavement at the entrance to the Doubletree hotel. Next I was surrounded when an individual, a strong husky man of perhaps 25 or 27 years of age, with a dark complexion used his larger stronger body to shove my own aside in full deliberate intent to knock me out of balance. All the while the mob chanted and shouted and, on top of this din, a bag pipe player added to the commotion, creating an atmosphere of fear on my part for the complete disregard for my personal right to engage in activities in a quiet peaceful way as a civil and honorable member of society.

At that moment I considered his body block/slam as assault and I did what I could to tell him this but the commotion and din along with the fact that he showed aggression, not concern for me made this unsuccessful. When Brian Dubie appeared I also appealed to him with the same, but he, though he clearly saw that I was attempting to communicate a matter of serious personal concern, chose to plow through my space without attention to anything other than to angrily name me by my first name.

I next appealed to the firefighters and to the policeman, who appeared completely unconcerned at the level of mayhem that the Republican Brian Dubie was inciting for the purpose of others, myself namely. I noticed others who were feeling intimidated, but I speak for myself, in saying that it was impossible to feel peaceful with the desire of the members of the Brian Dubie Republican team determined to display their superiority in might through verbal intimidation and physical intimidation with huge panels.

The panels he has manifested are roughly 4x8 and in complete disregard of Vermont's' billboard law, as well, the law appears to allow for the regular lawn size temporary signs during political campaigns and appears to prevent anything larger. VtT

statutes states that 150 square feet or 3x5 feet , is the legal size limit for fixed single business signs.

The manner in which these young people of greater strength than I, stand behind these illegally large panel's or billboards and acted in concert to shove me is unpeaceful, disorderly, and dangerous to my person, and I want to be protected from any further displays of might and intimidation from the Republican Brian Dubie and his entourage.

It is my duty and responsibility to serve the people of peace in Vermont, being a lawful candidate on the ballot and entitled to criticize standing government by virtue of my candidacy. I am to be afforded full protection for the peaceful engagement of my mission, free of intimidation, bodily harm or threat of bodily harm such as a football-style block, or body-slam that the individual working for Brain Dubie is clearly capable and ready to deliver and in fact , chose to deliver to my own physically weaker person last night in front of the Double tree hotel, close to 7 pm.

I want Brian Dubie to remove all billboard signs,of the dimensions larger than the small political sign allowable by Vermont law from Vermont , he must have none as large as a billboard 4x8 made or displayed anywhere in Vermont. I want the Authority to charge Brian Dubie and all individuals who display these signs inappropriately to be charged with removing them now. I want the Authority to protect me as I enter these public debates for the purpose of delivering criticism of our standing government, as is my duty and as well the clear legal expectation of me, as witnessed by my placement on the ballot for the ensuing election by more than 500 Vermont citizens, they expect me to . I want full police protection as I assert my right and duty to speak at any gathering of the public interested assessing the qualities of leadership available in the field of candidates for Governor. I want the city of South Burlington to protect me and the State of Vermont to protect me as I challenge the right of forums, debates and the like to prevent the aid that my service to the people of Vermont represents.

It is my responsibility to speak up against tyranny and taxation with the methods of civil and peaceful communication I command. It is the duty and responsibility of my government to protect me to the fullest as I utilize that right for the benefit of the People of Vermont. I charge the Democratic and Republican Political parties with colluding and conspiring with hosts of debates and forums to engage in systematic prevention of aid to

the people of Vermont. I charge Brian Dubie with inciting disorderly conduct of a mob, and disturbance of my personal peace, and with encouraging disorderly and dangerous conduct of a mob, and willfully violating the Vermont State statutes Billboard law, and using those same billboards to intimidate and harass me.

I charge the Rasmussen polling entity with conspiring with the above named parties to prevent the appearance of my name, lawfully placed on the ballot by the power of over 500 Vermont citizens, from appearing in the polls conducted to conclude the inclusion of candidates in the above named debates, forums and appearances.

I want openness and fairness in the elections as a matter of law, and that money itself is not freedom of speech, which I will demonstrate by the absence of money in the process of my application for the job of Governor of Vermont. Where the power of money is used to intimidate and brainwash the electorate and used to exclude intellectual material of substantive value as it has thus far in this 2010 process, I charge in those cases the power of money has been abused, and I want full protection from its further abuse from this moment on, which is September 27 of 2010, less the results of the pending election be suspect to fraudulent manipulation in the manner described, and I proactively challenge them unless steps are taken by Authority to protect me in the utility of my speech. I have the need for full protection by Authority from the abuse or threat of harm of all kinds as I deliver leadership to the people of Vermont. Please take your authority and protect the peace I describe herein, serve the principles of our constitution that have been violated by the person and persons, and entities I have named or described herein and further use your Authority to ensure my safety in the ongoing movement.

This movement can be described as the unification of our People for economic abundance, and peaceful adjustment of a broken, unjust political system.

I am grateful for your service and I thank you for it, returning my own service to you daily..
